Mr. D. D. Shakarian,
1259 South Cerritos Avenue,
Downey, Calif.

Agent for Downey Oil Corporation.

Dear Sir:

Your report of abandonment of well No. 1,
Sec. 36, T. 4 N., R. 17 W., S. B. B. & M., Newhall oil
field, Los Angeles County, dated June 2, 1939, and
submitted to this Division on our form 102, has been
examined in conjunction with records filed in this
office.

A review of the reports and records shows
that the requirements of this Division, which are based
on all information filed with it, have now been fulfilled.

Yours truly,

R. D. Bush

Subsequent Work Report

OPERATOR DOWNEY OIL CORPORATION FIELD Newhall
Well No. 1, Sec. 36, T. 4 N, R. 17W, S. B B. & M.

In compliance with the provisions of Chapter 718, Statutes 1915, as amended, the information given herewith is a complete and correct record of all work done on the well since the previous record, dated Aug. 24, 1938, was filed.

SIGNED DOWNEY OIL CORPORATION
Title [Signature]
(President, Secretary or Agent)

Date June 2, 1939

Date

Outline in the order of performance, together with the dates thereof, all important operations which alter the condition of the well. Include such information as depth at which redrilling operations were started, size of hole redrilled or deepened; size of pipe, amount of perforations in casing, weight and length of casing landed or cemented or removed; number of sacks of cement used in cementing or plugging operations and exact position thereof. If the well was dynamited, give date, size, position and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position and results of pumping or bailing.

Up to March, 1939 the condition of the well is as follows:

no casing in the hole.
Total depth 2630 feet.
No oil, gas or water found in the hole.
No work has been done on the well since March 1, 1938.
Dried mud stands in the hole at a depth of 15 feet.

PROPOSAL:

To abandon the well by filling with surface material from 15 feet to 5 feet and place cement plug from 5 feet to surface

On about April 15, 1939 the work was done as follows:

Surface material was filled from 15 feet to 5 feet and a cement plug from 5 feet to the surface.

All machineries, equipment and the derrick have been moved out.

Downey, California.

Dear Sir:

Maryland Casualty Company has requested that we release the bond covering your well No. 1, Sec. 36, T. 4 N., R. 17 W., S. B. B. & W., Newhall oil field.

The last record filed by you was the history, dated August 24, 1938, which states that on March 1, 1938, the hole was filled with heavy mud and operations suspended. If it is not your intention to further operate this well it should be capped at the surface in order that the bond may be released.

Please advise us at your earliest convenience as to your intentions in this matter.

Yours truly,

Deputy Supervisor.

Re: Bond No. 93381 - Downey Oil Corporation

Gentlemen:

We have been endeavoring for some time to procure information as to the status of this well and when the principal intends to complete the drilling operations. Up to this writing we have had no response. Will you, therefore, refer to your records in connection with Well No. 1 located on, section 36, township 4 north, range 17 west, S. B. B. & M., Pico Canyon Oil Field, Los Angeles County, California, and advise us if it is now in order to terminate our liability on account of the execution of this well.

In the event that it is not will you please inform us as to whether the principal has filed the necessary reports to date in connection with any drilling operations.

Yours very truly,

Mr. A. G. Burt,
125 No. Fair Oaks,
Pasadena, Calif.

Dear Sir:

In response to my request of October 6, 1937, that complete records on your well No. 1, Sec. 36, T. 4 N., R. 17 W., S. B. B. & M., Newhall field, be submitted in duplicate, I have received a single copy of the driller's log of the well. As a favor to you I shall have this log typed in duplicate in this office and accept it as the log and core record of the well.

The single copy of the history which you submitted is entirely inadequate and can not be accepted. This history should be a running story of the drilling of the well, giving the date of spudding the well, the size of the hole drilled, dates and details of casing landed or cemented, fishing jobs, shut-down periods, etc.

No mechanical log (form 100) was received with your records.

I am enclosing another small supply of form 100 and 103, upon which please compile a detailed history and a mechanical log, both in duplicate, sign them and submit them to this Division as soon as possible.

Yours truly,

Deputy Supervisor.

Mr. R. D. Bush,
State Oil and Gas Supervisor,
San Francisco, Calif.

Dear Sir:

On May 10, 1937, Downey Oil Corporation acquired by sublease, A. G. Burt well No. 1, Sec. 36, T. 4 N., R. 17 W., S. B. B. & M., Newhall field.

This information has come to me in a letter from A. G. Burt, dated August 29, 1937, and from Downey Oil Corporation, dated September 27, 1937. Our records have been changed accordingly.

Downey Oil Corporation has filed a rider to be attached to the bond of A. G. Burt, changing the principal of the bond to Downey Oil Corporation. I am enclosing this rider herewith.

Downey Oil Corporation has also filed a completed form designating D. D. Shakerian as agent for Los Angeles County. This designation of agent form is also enclosed.

Yours truly,

Attention Mr. Abrams

Gentlemen:

In reply to your letter of August 30th, and further referring to our recent conversation, please be informed that on the 10th day of May, 1937 A. G. Burt assigned to the DOWNEY OIL CORPORATION all of his right, title and interest in and to the following described property and to what is known as Well No. 1, Section 36, Township 4 North, Range 17 West, Newhall Oil Field.

A new bond has been filed, as no doubt your records show at this time. *Rider.*

It is our desire that this well be known in the future as DOWNEY OIL CORPORATION NO. 1.

no change here.

The property affected by the parent lease involved is as follows:

Those portions of lots 1, 6 and 7 of the St. John Subdivision in the Ro San Francisco, as per map recorded in Book 196, Page 304 of Miscellaneous Records of Los Angeles County, and that portion of the Ro. San Francisco as per map recorded in Book 1, Page 521 of Patents, Records of said county, described as a whole, as follows:

Beginning at an intersection of the south line of said Lot 7 with the southwesterly line of the Newhall and Pico Canyon Road 40 feet in width, as shown on Map 6681, Records of the County Surveyor of said county, said point of beginning being distant 2891.49 feet westerly from Survey Station No. 3 of the Patent boundary line of said rancho; thence along the southwesterly line of said road north $16^{\circ}35'$ west, 28.17

DOWNEY OIL CORPORATION

Page 2

feet to an angle point on said line; thence continuing along said southwesterly line of said road by courses and distances as follows: north $70^{\circ}15'$ west, 91.3 feet at an angle point thereon; north $18^{\circ}50'$ west 188.75 feet to an angle point thereon; north 64° west 255.19 feet to an angle point thereon; north 48° west 245.87 feet to an angle point thereon; north $65^{\circ}45'$ west 101.24 feet to an angle point thereon; north $72^{\circ}50'$ west 132.23 feet; thence leaving the southwesterly line of said Newhall and Pico Canyon Road north $14^{\circ}31'$ west 3259.89 feet; thence north 46° west 871.2 feet; thence north $75^{\circ}55'$ west 540.9 feet; thence north $86^{\circ}10'$ west 696.6 feet; thence north $51^{\circ}54'$ west 1860.7 feet; thence north $26^{\circ}55'$ west 2458.4 feet; north $54^{\circ}13'$ west 8581.3 feet; thence south $54^{\circ}36'37''$ west 5345.3 feet; thence south $17^{\circ}09'$ west 2018.1 feet; thence south $72^{\circ}24'$ east 1374.5 feet; thence south $49^{\circ}48'$ east 3395.7 feet; thence south $2^{\circ}36'$ east 5393.63 feet to a point in the south boundary of said Ro San Francisco; thence along the south line of said rancho, north 88° east 659.61 feet to the intersection of the westerly line of the tract of land conveyed in the deed from the Newhall Land and Farming Company to Standard Oil Company dated October 17, 1921, recorded in Book 622, Page 263 of Official Records of said county; thence along said westerly line north $25^{\circ}40'04''$ west 1408.14 feet, more or less, to the northwest corner of the land so conveyed to said Standard Oil Company; thence continuing along the tract of land so conveyed north $45^{\circ}14'$ east 191 feet to an angle point; thence north $89^{\circ}25'$ east 737 feet to the northeast corner of said tract of land; thence along the easterly line thereof south $38^{\circ}23'$ east 1740.8 feet more or less to the intersection of the aforesaid south line of said rancho; thence along said south line north 88° east 7390.38 feet more or less to the southerly line of the Newhall and Pico Canyon Road, 40 feet in width, thence easterly along the southerly and southwesterly line of said Newhall and Pico Canyon Road to the place of beginning.

The property being operated
under the aforesaid sub lease being

That portion of the property hereinabove described enclosed by the following traverse:

Station 1 to be located at the southeast corner of Standard Oil Company property, which is designated as 622-263 O. R.

From Station 1 the traverse takes the direction N 88° E for a distance of 1500 feet; This line lying along the boundary of the Ferguson Ranch. Station 2 lies at the eastern end of this course.

DOWNEY OIL CORPORATION

Page 3

From Station 2 the traverse lies along a line with the direction N 41°50' W. The end of this course is at Station 3 which lies on the western boundary of the Ferguson Ranch (which runs in the direction S 2°36' E)

From Station 3 the traverse lies along the line S 2°36' E for a distance of 1500 feet. (This line is also a boundary of the Ferguson Ranch) Station 4 lies at the end of this course.

From Station 4 the traverse lies along the line S 38°23' E and continues along this line to the close of the traverse at Station 1.

(This description is taken from a map compiled from records of the County Assessor's office and from deeds drawn by R. K. Earley, licensed surveyor.

It is of the greatest importance to have a complete history of the well. Use this form in reporting the history of all important operations at the well, together with the dates thereof, prior to the first production. Include in your report such information as size of hole drilled to cementing or landing depth of casings, number of sacks of cement used in the plugging, number of sacks or number of feet of cement drilled out of casing, depth at which cement plugs started, and depth at which hard cement encountered. If the well was dynamited, give date, size, position and number of shots. If plugs or bridges were put in to test for water, state kind of material used, position and results of pumping or bailing.

R. D. BUSH

New drilling in the southeasterly end of the Newhall-Potrero field makes it necessary to add the SW $\frac{1}{4}$ of Sec. 31, T. 4 N., R. 16 W., S. E. B. & M., to the Newhall-Potrero field. This addition will necessitate changing the record of Downey Oil Corporation well No. 1 in Sec. 31, which has been shown as being in Los Angeles County.

There are actually three other wells in this quarter-section, but they were erroneously entered as being in the Newhall-Potrero field originally so their records do not need to be changed.

Will you please make this change in your records.

E. H. Messer

Deputy Supervisor.

R. D. BUSH

February 6, 1948

According to information furnished us by General Exploration Company of California, Downey Oil Corporation well No. 1, Sec. 36, T. 4 N., R. 17 W., S. B. B. & M., is not correctly located. The correct co-ordinates are 290 feet W. and 150 feet E. from the SW corner of Sec. 31, T. 4 N., R. 16 W.

We believe this new location is more accurate than that shown on the notice to drill and are therefore correcting our map to show the well to be in Sec. 31. The well record will now be carried in Los Angeles County instead of in Newhall field as previously shown.

G. J. Messer

Deputy Supervisor.

DIVISION OF OIL AND GAS

Report on Proposed Operations

No. P 1-30390

Los Angeles,

Calif. February 10, 1937

Mr. A. G. Burt,

Pasadena,

Calif.

Agent for A. G. BURT

DEAR SIR:

Your proposal to drill Well No. 1
Section 36, T. 4N., R. 17W., S. B.B. & M., Newhall Field, Los Angeles County,
dated Feb. 3, 1937, received Feb. 8, 1937, has been examined in conjunction with records filed in this office.

Present conditions as shown by the records and the proposal are as follows:

THE NOTICE STATES:

"The well is 400 feet NO of SO Line And 600 Feet W Of E Line Of Sec 36 In SE $\frac{1}{4}$
The elevation of the derrick floor above sea level is 1200 feet.

We estimate that the first productive oil or gas sand should be encountered at a depth of
about ? feet, more or less."

PROPOSAL:

"We propose to use the following strings of casing, either cementing or landing them as here-
in indicated: Size of Casing Weight New or Second Hand Depth Landed or Cemented
This is a Wildcat Well. We are not aware of conditions
We are starting for the purpose of going 5000 feet if necessary
And starting an 18 inch hole.

Well is to be drilled with rotary tools.

It is understood that if changes in this plan become necessary we are to notify you before
cementing or landing casing."

DECISION:

This division has not sufficient data available upon which to base an estimate of the depth
at which oil or gas-bearing formations should be encountered in this vicinity, nor the depth
at which a water shut-off should be effected.

THE PROPOSED DRILLING PROGRAM IS APPROVED, HOWEVER, PROVIDED THAT:

1. (a) Mud fluid of not less than 70 lb. per cubic foot shall be used in the drilling of the
well and the column of mud fluid shall be maintained at all times to the surface,
particularly while pulling the drill pipe.
- (b) Adequate blow-out prevention equipment shall be provided and ready for operation at
all times.
2. Sufficient surface casing shall be cemented in a substantial shale body for the protection
of the known surface or domestic water supplies.
3. Any hole to be sidetracked at any time during the drilling of this well shall be com-
pletely filled with cement.
4. THIS DIVISION MUST BE NOTIFIED AS FOLLOWS:
 - (a) When a showing of oil or gas is encountered.
 - (b) Before landing or cementing any casing. Other requirements may be outlined at
that time.
 - (c) To witness a test of each possible water shut-off.

Notice of Intention to Drill New Well

This notice must be given before drilling begins

Mr. E. Huguenin Pasadena Cal. Febr. 3 1937

Deputy State Oil and Gas Supervisor

Los Angeles Cal.

DEAR SIR:

In compliance with Section 17, Chapter 718, Statutes of 1915, as amended, notice is hereby given that it is our intention to commence the work of drilling well No. (One) / , Sec. 36, T. 4 NO. 17 W. B. & M. Pico Canyon Newhall Oil Field Los Angeles. County.

Lease consists of 126 Acres More Or Less.

The well is 400 feet N. or S., and NO. of SO. Line. And 600 Feet W. Of E. Line of Sec. 36. feet E. or W. from In SE 1/4
(Give location in distance from section corners or other corners of legal subdivision)

The elevation of the derrick floor above sea level is 1200 feet.

We propose to use the following strings of casing, either cementing or landing them as herein indicated:

Size of Casing, Inches	Weight, Lb. Per Foot	New or Second Hand	Depth	Landed or Cemented
This Is A Wildcat Well , We Are Not Aware Of Conditions.				
we Are Sarting For The Purpose Of Going 5000 Feet If Necessary				
And Starting An 18 Inch Hole.				

Well is to be drilled with rotary tools.

It is understood that if changes in this plan become necessary we are to notify you before cementing or landing casing.

We estimate that the first productive oil or gas sand should be encountered at a depth of about ? feet, more or less.

Respectfully yours
